A prolific author, talented artist, and adventurer, Gordon-Cumming spent much of her life travelling around the globe – a fact that invited some controversy since she often travelled alone at a time when it was unheard of for a lady to do such a thing.

In the Hebrides details the author's travels in Scotland, starting from the Mull of Kintyre and making her way through the beautiful and historic islands – including some of the most remote (and now unpopulated) places such as St Kilda – and also includes fascinating details of local customs, traditions and folklore of the places she visited.
