- Wool roving: This is the raw wool that will be used to create your projects. It comes in various colors and can be purchased online or at local craft stores.
- Barbed felting needles: These specialized needles have tiny notches along their length that catch the wool fibers and tangle them together when repeatedly stabbed into the roving.
- Foam pad: A foam pad provides a soft surface to work on and protects your table from the sharp needle. You can use a foam cushion or a piece of dense foam.
- Optional: Wire armature, glass eyes, and other decorative elements to enhance your creations.
