**ANCIENT ASTRONAUTS AND THE ULTRA-TERRESTRIALS – THE REVEALING TRUTH COULD CAUSE WORLDWIDE RELIGIOUS, POLITICAL AND ENERGY UPHEAVALS!**

The belief in strange beings coming down from the stars to intermingle with humanity can be traced back to the earliest days of mankind. While the scientific community maintains that the current notion of UFOs and their extraterrestrial pilots is simply a modern version of the myths and legends contained within almost every culture and civilization, Ancient Astronaut theorists maintain that we have been “tinkered with,” and that someone – or “something” else – is keeping a watchful eye over mankind for their own purposes that can only be alluded to.

As early as the 1960s, Britain's 8th Earl of Clancarty, Brinsley Le Poer Trench, made an astounding revelation. He said that he was convinced that life on earth had originated on the planet Mars and that the first voyagers here had been the Biblical Adam and Even who had left their paradise of the Garden of Eden and arrived on earth in a space ark piloted by Noah.

Thus the roots of the various Biblical stories from the Old Testament which are taught in every Sunday School today. But the story told by British nobility and the other researchers in this book tell even a far stranger tale about the secret history of our planet, a history that is "forbidden knowledge" to a handful of individuals who are now sharing their findings for the first time:

\* Why has the CIA and the military shown an unprecedented interest in the remains of what many claims to be Noah's Ark that came to rest on Turkey's Mount Ararat? Is the anomalous structure a crashed space ship, something metallic as opposed to the gopher-wood of the Biblical tale, as researcher Nick Redfern insists could be true?

\* Is there a distinction to be made between the ancient aliens and the true Creator God, and do these "visitors" have the same imponderable questions as we do about life, death and religion? Eric von Daniken spokesman Giorgio Tsoukalos has his own ideas on this concept?

\* "We have met the Martians and they are us," suggests Brad Steiger. Is there new evidence to suggest that life on earth was first planted in South America and spread out from there?

\* Is there a new race of humans being formed in these uncertain times? According to the Earl of Clancarty, some of us are rapidly reacquiring the telepathy and psychic we were originally created with.
