Spanning 1887 to a month before his death in 1910, The Journal of Jules Renard is a unique autobiographical masterpiece that, though celebrated abroad and cited as a principle influence by writers as varying as Somerset Maugham and Donald Barthelme, remains more of a cult object in the United States.

Throughout his journal, Renard develops not only his artistic convictions but also his humanity as he reflects on the nineteenth-century French literary and art scene, and on the emergence of his position as an important novelist and playwright in that world. Through a mix of aphorisms and observations, short scenes, gossip, jokes, and meditations on life and art, Renard portrays the details of his personal life—his love interests, his position as a socialist mayor of Chitry, the suicide of his father—that often appear in his work.

In recent years, the fragmented memoir has grown in popularity, and there's been a resurgence of diary as an artistic form. Once again, Jean Paul Sartre's assessment that "directly, or indirectly, Renard is at the origin of contemporary literature" rings true. In a new , Sarah Manguso—whose groundbreaking nonfiction incorporates elements of diary and aphorism—both contextualizes and celebrates Renard's seminal journal.
