An extensive history of the rise and fall of Nazi Germany's air force.

In his thoroughly researched study, John Killen examines German air power between 1914 and 1945, from the early days of flying when Immelmann, Boelke, Richtofen, and other First World War aces fought and died to give Germany air supremacy, to the nightmare existence of the Luftwaffe as the Third Reich plunged headlong to destruction.

Here are the aircraft: the frail biplanes and triplanes of the Kaiser's war; the great Lufthansa aircraft and airships of the turbulent Thirties; the monoplanes designed to help Hitler in his conquest of Europe. Here are the generals who forged the air weapon of the Luftwaffe: the swaggering Goering, the playboy Udet, the ebullient Kesselring, and the scapegoat Jeschonnek. Here, too, are the pilots who tried to

keep faith with their Fatherland despite overwhelming odds: Adolf Galland, Werner Molders, Joachim Marseille, and Hanna Reitsch. Not least are the actions fought by the Luftwaffe from the Spanish Civil War to the Battle of Britain, through the bloody struggle for Crete, and the siege of Stalingrad to the fearful twilight over Berlin.

“A good, readable account of the rise and fall of the Luftwaffe that covers all of the main fronts on which it fought, and examines the reasons for the eventual failure as well as providing a readable narrative.” —History of War
