This 365-page, richly illustrated book is a fully comprehensive guide to all Spanish cruise ports and Gibraltar. In a series of in-depth introductory articles, the author first examines the history, culture and people of Spain and Gibraltar. In these essays, he discusses the extraordinary harmony of Spain's multi-cultural society and the lasting influence of the Moors, who conquered the country and settled in it for 700 years - only to be ousted by the Catholic monarchs, Ferdinand II of Aragon and Isabella II of Castile. He goes on to explain why Catalonia is so different from Madrid and the rest of Spain, and discusses the life, work and impact of Antoni Gaudi, the country's most controversial architect. He then turns his journalistic eye onto all the main towns of Andalusia, before introducing each cruise port and highlighting their main attractions with full details of their location, opening times and admission prices in three currencies.
