Teach your child to count from 1 to 10 with fun and laughter... learning to count consists of 3 parts:

- * The names of the numbers
- * The order of the numbers - knowing which number comes after another
- * The concept of a number - understand that a number represents a quantity of

something and 3 is more than 2

* Numbers visual recognition - how does "3" look like?

This book tries to give an answer to all of those needs by using fruits and vegetables which children know and by adding them funny drawings (faces and/or scenery) it makes the child more interested in the items in the page.
