The Beast, known by many names throughout history - Lucifer, Satan, or the Devil - present since the dawn of creation, used his allure and serpentine cunning to infiltrate the Garden. In the form of a serpent, he approached Eve, tempting her with the forbidden fruit of knowledge. His seductive words whispered doubt into her mind, questioning God's intentions and tempting her with the allure of enlightenment.

The Beast preyed on her curiosity, tasting the forbidden fruit herself and convinced Adam to do the same. As they succumbed to their desires, their eyes were opened, and they experienced a profound shift in their consciousness. The Light within them dimmed, and their innocence was shattered, forever altering the course of humanity.

With their newfound knowledge came a sense of shame and guilt, as they realized they had disobeyed God's divine command. Consequently, they were banished from the Garden of Eden, marked by death and suffering as they stepped out into the world beyond. The harmony they once knew shattered, now tainted by the presence of The Beast, lurking in the shadows, waiting to prey on mankind's vulnerabilities.

Since that fateful moment, The Beast has continued to manipulate and exploit human weakness, seeking to extinguish the Light within humanity. From Cain's jealousy that drove him to slay his brother Abel, to the countless evils that have plagued mankind throughout history, The Beast's influence can be seen in every facet of civilization.

However, hope is not lost. The story of The Beast and The Light in the Garden of Eden also reveals the presence of a benevolent force, determined to guide humanity back to its righteous path. Even in the aftermath of Adam and Eve's expulsion, God continued to provide guidance, promising a Messiah who would bring salvation and redemption.

This Messiah, known as Jesus Christ, became the embodiment of The Light, challenging The Beast's reign over humanity. Through His teachings and ultimate sacrifice, Christ offered humanity a path to salvation, eternal life, and a beacon of hope in the face of darkness.

While humanity remains locked in a fierce battle between The Beast and The Light, each individual carries the responsibility to choose their path. The Beast tempts with worldly desires, luring humanity into the depths of sin, whereas The Light enlightens, offering grace, redemption, and the promise of eternal life.

In the Garden of Eden, The Beast and The Light collided in a moment that forever altered the reality of human existence. This ancient tale reminds us of the eternal struggle between good and evil and the power of choice that resides within each of us.

As history unfolds, humanity continues to grapple with this cosmic battle, navigating its complexities, seeking redemption, and yearning for a world without the influence of The Beast. Only through embracing The Light, rediscovering our innate goodness, and choosing the path of righteousness can humanity triumph over darkness and find peace within its own garden.

Genesis provides the foundation for understanding human suffering. The story of Original Sin and the Fall of mankind sets the stage for everything that follows. But what kind of a God would punish and curse the children of future generations of for wanting to become Homo sapien... man the wise? We are told that Eve's curiosity and disobedience are reasons enough for our predicament and encouraged to move on to get to the reward of the "good news." Most of us do exactly that treating Genesis like a preface to a book that can be glossed over to get to the meat of the story. But in so doing, we gloss over the problem that Jewish and Christian apologists have left virtually untouched for 2500 years. What did God's animals have to do with Eve's disobedience? Why were they sentenced to the eternal cycle of birth, suffering, and death? What was the justification for changing the world from a Garden of Eden into one that is "red in tooth and claw?" Or is the answer to this seemingly unanswerable riddle found in a re-reading of Genesis to see if the Garden of Eden was really a killing field as originally created by God? Were lions laying down with lambs or could they have been feasting on them? The Beast and the Light in the Garden of Eden tackles the theodicy problem -- the defense of God's goodness and omnipotence in view of the existence of evil -- from the both the classical approach and a fresh common sense and scientific perspective.

Genesis is seen as a story about us and our responsibility for the predicament of the cycle of life, suffering, and death. It is the story about our choices and where they led us. But that isn't the only story. There are many glimpses into the mind of the Creator and into His choices. Glimpses that we have been led to believe we should simply accept and avoid dwelling on. The Beast and the Light in the Garden of Eden dwells and comes to a shocking and perhaps unavoidable . Author Gail Eisntz observes in her Foreword, "Siegel's philosophical is that, as humans, we are all witnesses; as humans, we do not get a free pass on the suffering of others, nor do we have the luxury of saying "I don't want to think about it." As an elder shared in a special letter to Siegel in the book's final chapter, "We must do what we can while on earth to alleviate suffering, if we are to be at peace with ourselves." In his well-constructed analysis of transgressions in the Garden of Eden, Siegel quite literally provides food for thought and makes us all contemplate what we can do to stop suffering and help heal our world."
