

Uncover the Latest Innovations in Human-Computer Interaction: 21st HCI International Conference HCII 2019 Orlando, FL, USA July 26-31, 2019

Welcome to the 21st HCI International Conference (HCII) 2019, which will be hosted in the beautiful city of Orlando, FL, USA from July 26-31. This prestigious conference serves as a global forum to bring together leading experts and researchers in the field of Human-Computer Interaction (HCI), fostering collaboration, knowledge sharing, and groundbreaking advancements in this rapidly evolving field.

Keynote Speakers

We are thrilled to announce that this year's conference will feature an exceptional lineup of keynote speakers who are at the forefront of HCI research and innovation. They will provide valuable insights into emerging trends, cutting-edge technologies, and the future of human-computer interaction.

HCI International 2019 – Late Breaking Posters: 21st HCI International Conference, HCII 2019, Orlando, FL, USA, July 26–31, 2019, Proceedings (Communications ... Computer and Information Science Book 1088)

- **Dr. John Doe** - Renowned HCI expert and author of the groundbreaking book "Designing User Experiences: Principles and Practices."

- **Dr. Jane Smith** - Noted researcher in the field of augmented reality and its impact on HCI.
- **Dr. James Johnson** - Expert in the design and evaluation of user interfaces for mobile devices.

Conference Highlights

During the five-day event, attendees will have the opportunity to engage in a variety of activities, including:

1. Presentations by leading researchers on the latest advancements in HCI.
2. Workshops and tutorials covering various aspects of human-computer interaction.
3. Demonstrations of cutting-edge technologies and interactive prototypes.
4. Poster sessions where researchers can showcase their work and receive feedback.
5. Panel discussions on emerging topics in HCI.
6. Networking opportunities with fellow professionals, researchers, and industry experts.

Featured Topics

The conference will cover a wide range of topics related to HCI, including:

- User Experience Design
- Augmented and Virtual Reality
- Social Computing
- Usability and Accessibility

- User-Centered Design
- Mobile and Ubiquitous Computing
- Data Visualization
- Gaming and Entertainment
- Cognitive and Affective Computing
- Human-Robot Interaction

Paper Submissions

Researchers and practitioners are invited to submit their papers on any HCI-related topic. All submissions will be thoroughly reviewed by the expert program committee, and accepted papers will be included in the conference proceedings. This is a fantastic opportunity to share your research findings with a global audience and receive valuable feedback.

Registration and Venue

Registration for the conference is now open! Early-bird discounts are available, so make sure to secure your spot early. The conference will take place at the exquisite Orlando Convention Center, conveniently located near world-class attractions and accommodations.

Join Us at HCII 2019!

Don't miss your chance to be a part of this extraordinary event where the world's leading minds in HCI come together to explore the future of human-computer interaction. Whether you are an experienced researcher, practitioner, or simply curious to learn more about this fascinating field, HCII 2019 promises to be a captivating and enriching experience.

For more information and to register, visit the official conference website at www.hciinternationalconference2019.com.

This book constitutes the extended abstracts of the posters presented during the 21st International Conference on Human-Computer Interaction, HCII 2019, which took place in Orlando, Florida, in July 2019.

The total of 1274 papers and 209 posters included in the 35 HCII 2019 proceedings volumes was carefully reviewed and selected from 5029 submissions.

The 55 papers presented in this volume are organized in topical sections as follows: interaction design; cognitive issues in HCI; accessibility and universal access; learning and games; HCI in health and rehabilitation; HCI in business and society; big data, machine learning and visual analytics; and user studies.
