Our journey on the world’s railway gauges now takes us through the remainder of Asia and on to Australia and New Zealand. Much of South-East Asia is still committed to narrow gauge – but will China, as we have seen elsewhere in Asia, continue to fund, and even build, Standard gauge tracks in these countries almost on its doorstep? Australia is a different proposition altogether. The country is famous for the multiplicity of its railway gauges – a situation that goes to the very heart of Australia’s character, a character that shaped how this big and wonderful

country developed. The country is still wrestling with this gauge situation – but could Australia have become what it is today any other way? Join me in our travels in what is so far the biggest chapter in this seven part series. Revised and updated for 2016.
