"At first sight, it is an inventive tale about untrustworthy humans and reliable, intelligent animals . . . however, it is much more than that. It is a kind of parable that captures much of what is alarming today. Perhaps it is social and moral

decay but, even more, it is a matter of the power technology has put into hands that may not be those you would trust."

- Robert Noble Graham, author

Electra Sittie enjoys an ideal, carefree life on the Island of Monita, until nature had a different idea and disaster struck. Rising sea level, devastated migrants on overcrowded boats, and ruthless smugglers are threatening their island's survival. Her slow awakening about I-Play-U forces her to seriously reassess her future with him. With the help of her dog, I-Bite-U, and her cat, I-Scratch-U, she plans her desperate escape from her mentally ill husband and his wealthy family.
